### Cruise Commander Comments:

1. I have tried to split weekend days so everyone has a day to get ready before leaving and a day to get organized upon return before going back to work.
2. I need volunteers to lead cruises where Cruise Leader is "TBD".
3. Ports of call as listed, or will be determined by the Cruise Leader for that cruise.
4. I have intentionally made the above schedule ambitious, as weather may force cancellation of at least one cruise (if 2017 was any example...).
5. Dates for cruises are subject to revision to meet the Cruise Leader availability and opinion of how long a given cruise should take, lay days, etc. The above "schedule" is flexible, subject to further input. We expect cruisers to join or leave organized cruises based on their availability and preferences.
6. The changes between Version 1.1 of 4 Jan 18 and Version 1.2 of 15 Feb 18 are due to deconfliction with Blessing of the Fleet, which was scheduled on the same date as the original Shakedown Cruise and input from cruisers in response to the Survey.
